BUTTER DROPS FIVE CENTS IN A DAY

Total Fall of 15 Cents in Two Weeks—Wholesale Market Demoralized, Demand at Zero Point.

Chicago, Jan. 23.—Butter dropped five cents a pound yesterday wholesale. This makes a total fall of 15 cents a pound in less than two weeks. Wholesale trade in butter yesterday was described as not merely demoralized but paralyzed. Demand, both foreign and domestic, was almost at the zero point.

Stoppage of government and foreign buying as a result of cheap supplies abroad, especially from Australia and South America, started the drop. Excessive high prices in the domestic trade was the result.

\$700,000,000 FOR RAILROADS

Congress May Be Called on to Furnish Such a Sum

BILLION DOLLARS ARE TO BE SPENT

And a Great Proportion of This Will Have to Come Through Congress

Washington, D. C., Jan. 24.—The sum which Congress will be asked soon to appropriate as an addition to the railroad administration revolving fund may be as much as \$700,000,000, it was learned today.

The railroad administration's tentative program calls for expenditure of about a billion dollars this year for extensions, improvements and new equipment of the railroads under government control, and a large part of this must be financed from the revolving fund in loans to railroads. In addition, the railroad administration may be called on, as contracts with the individual roads are completed, to furnish working capital and credit the companies with cash taken over by the administration when it assumed control. The aggregate of these two items is calculated at \$340,000,000.

Under a new policy this year, the railroad administration will not approve in advance an entire program of improvements for each road, but will authorize specific projects from time to time.

CHARGED WITH ASSAULT.

Rutland Lumberman Said to Have Attacked Wife with Razor.

Rutland, Jan. 24.—Fred Nault, a lumberman of this vicinity, was arrested the first of the week on a charge of intoxication and later in the week was in court on a charge of assault with intent to kill. He pleaded not guilty, waived examination and was bound over to the March term of Rutland county court, failing to secure \$1,000 surety.

It is alleged that Nault has been working rather infrequently lately and has on various occasions been intoxicated, at which times he has threatened to kill his wife and did, on Jan. 21, draw a razor to attack her, his plan being failed by a friend of the woman, who wrested the weapon from his hands.

Nault is said to admit that he has not treated his wife as he should, although he says that his condition was such at the time of the last alleged assault that he remembers nothing of the circumstances. He is now in jail, where he will be kept until March.

Friends of W. E. Barney of Barre and Mrs. Alice Morse Barney, formerly of Cabot, now residing in Alva, Fla., will be pleased to read the following lines in regard to their son, Philip: From American Eagle, Lee county, Dec. 26, 1918.—

Christmas is a cheery season for the Barney, as their son, First Lieut. Philip E. Barney, Co. D, 47th M. G. B., has returned home from the service. He was the first of the Alva boys to enlist in the army when war was declared (Perry English enlisted in the navy the same day), and is the first to return now the armistice is signed. He has just reached Florida from Camp Kearney, Cal., stopping for part of a day to enjoy the snow and ice which covered Salt Lake City.

Lieut. Barney has sent interesting letters home, telling of two enjoyable flights he made in airplanes. He went on board two submarines and was shown all parts of the craft, but regrets that he could not have a ride under-water in one of them. He visited the Oregon, the most famous of our battleships, now the flagship of Admiral Fullam, and was taken over the vessel by an ensign. At Camp Perry small arms firing school he won the rank of divisional instructor, and at the machine gun school for officers at Camp Kearney was recommended for company instructor. Only five or six of the student officers of his class received this rank, some being recommended for platoon instructors, some failing of either. Although in love with southern California, Lieut. Barney thinks the Florida climate is preferable, with rain in summer and sunshine in winter.

SWIFT & CO. PROFITS LESS THAN 2 PER CENT

Only Thing Wrong with Packing Business Is Public Impression Something Is Wrong.

Washington, D. C., Jan. 24.—Methods of the federal trade commission in conducting its meat packing inquiry were attacked at yesterday's hearing of the House interstate commerce committee on legislation to regulate the meat industry in accordance with the commission's recommendations.

J. H. Mayer, counsel for Armour & Co., was on the stand testifying to the constitutionality of the bill and the commission's inquiry.

When the federal trade commission took testimony and found a verdict of guilty against the packers, Mr. Mayer said, his clients were given no chance to reply and he was not allowed to participate in the hearing at all.

"Do you mean to say the federal trade commission undertook to investigate a great industry without giving the industry a chance to present its side?" asked Representative Sanders.

"Absolutely not," Mr. Mayer said. "I made three trips to Washington to plead for the opportunity but they refused and gave no reason. They sent scores and scores of examiners to go through the files of Armour & Co. and took many letters."

"Of course they took all the letters to show the context?" Mr. Sanders interrupted.

"They did not," Mr. Mayer answered. He added that a mistaken inference drawn from one letter referring to an alleged price on and confirmed was due to the failure of the commission to take other letters which would have explained that the price was fixed by the food administration and not by the packers.

Louis F. Swift, president of Swift & Co., who followed Mr. Mayer on the stand, declared the commission's report was unfair in many respects. He said that "careless, offhand" statements by Francis J. Heney, who conducted the commission's inquiry, such as that the packers' profits were greater under the food administration than previously, did the business much injustice. He said Swift & Co. made only 1.76 per cent on each dollar of sales in the fiscal year 1918 when they were under control of the food administration, while in the year previous they had made 3.98 per cent.

Mr. Swift, like the president of Armour & Co., denied any collusion between the packers, and said they were keenly in competition with one another.

"The only thing that is wrong with the packing business is the public impression that something is wrong," he asserted. "If that impression, which has been created by misstatements and the inflaming of public prejudices, could be remedied, the need for all this legislation would also be remedied."
